

Email from Brian Wegner on 6-23-2016

Dear Steve,

I've been working on an application to have the Tualatin River Water Trail designated as a National Water Trail. The National Parks Service requires a letter of consent from the owners of public access facilities on the water trail. I am hoping that you can provide that letter of consent.

Attached you will find:

- A letter explaining the National Water Trail Application;
- A draft letter of consent from Washington County supporting the National Water Trail designation;
- A draft ordinance for the Washington County Commissioners in support of the National Water Trail Designation.

I have been advised by the National Parks Service that there will likely be a new Secretary of the Interior with the new administration next year, so I would like to get everything submitted before the end of summer.

Thanks for your help.
