3. A conditional use (C) is a use the approval of which is discretionary with the Hearings Officer. The approval process and criteria are set forth in Chapters 18.310 and 18.320. If a use is not listed as a conditional use, it may be held to be a similar unlisted used under the provisions of Chapter 18.230.

- A. Sub-areas. The four sub-areas located on Map 18.610.A and described below have different setback and height limits in order to create a feeling of distinct districts within the larger zone.
1. Highway 99W and Hall Boulevard Corridor. This sub-area is intended to create a “pulse-point” along the Highway 99W corridor. Located at the intersection of 99W and Hall Boulevard, the area has the high traffic and visibility to draw potential retail customers from the region. It will also serve the potential for future high capacity transit in the corridor. The area will accommodate higher levels of vehicular circulation, while maintaining a pedestrian scale at the ground-floor level of buildings. It would allow development of mixed use and retail buildings that could vary in scale from one-story retail-only buildings, to mixed use buildings up to 45 feet tall with retail on the ground floor and residential and/or office uses above.
 2. Main Street - Center Street. This sub-area is centered on the city’s historic downtown Main Street. It is intended to be pedestrian oriented with smaller scale development that would function like a “traditional Main Street.” A pedestrian environment would be improved with a continuous building wall broken only intermittently. New buildings in the sub-area must include ground floors with commercial storefront features. Residential and commercial uses are permitted on upper floors.
 3. Scoffins Street - Commercial Street. This sub-area is intended to provide an opportunity for higher density residential as well as an employment base comprised of civic, office and commercial uses in the areas of Commercial Street and Scoffins. Residential-only buildings, office/commercial buildings, and mixed use developments are all permitted.
 4. Fanno - Burnham Street. This sub-area provides an opportunity for medium scale residential or mixed use development. Compatible mixed uses (live-work, convenience retail, office and civic uses) are encouraged on the frontage of Burnham Street. The area in proximity to Fanno Creek Park will be an opportunity to create a high quality residential environment with views and access to the natural amenity of Fanno Creek Park. Building heights will step down to three stories so as not to overwhelm or cast shadows on the park.

Note: for standards for development surrounding the future public plaza see Section 18.610.040, Special Requirements for Development Bordering Urban Plaza.

B. Development standards. Development standards apply to all new development in the MU-CBD zone, including developments utilizing the Track 3 approval process. Variances or adjustments may be granted if the criteria found in Chapter 18.370 is satisfied.

1. Development standards matrix. See Table 18.610.1 and Map 18.610.A.

¹ This table does not apply to existing development. All new buildings in the district must meet these development standards, including projects using the Track 3 approval process.

² For standards for development surrounding the future public plaza see Section 18.610.040, Special Requirements for Development Bordering Urban Plaza.

³ See also Section 18.610.045, Exceptions to Standards.

⁴ In the MU-CBD zone, required landscaping can be provided on roofs or within the right-of-way where the applicant is required to provide landscaping as part of a street improvement in accordance with Section 18.610.025.

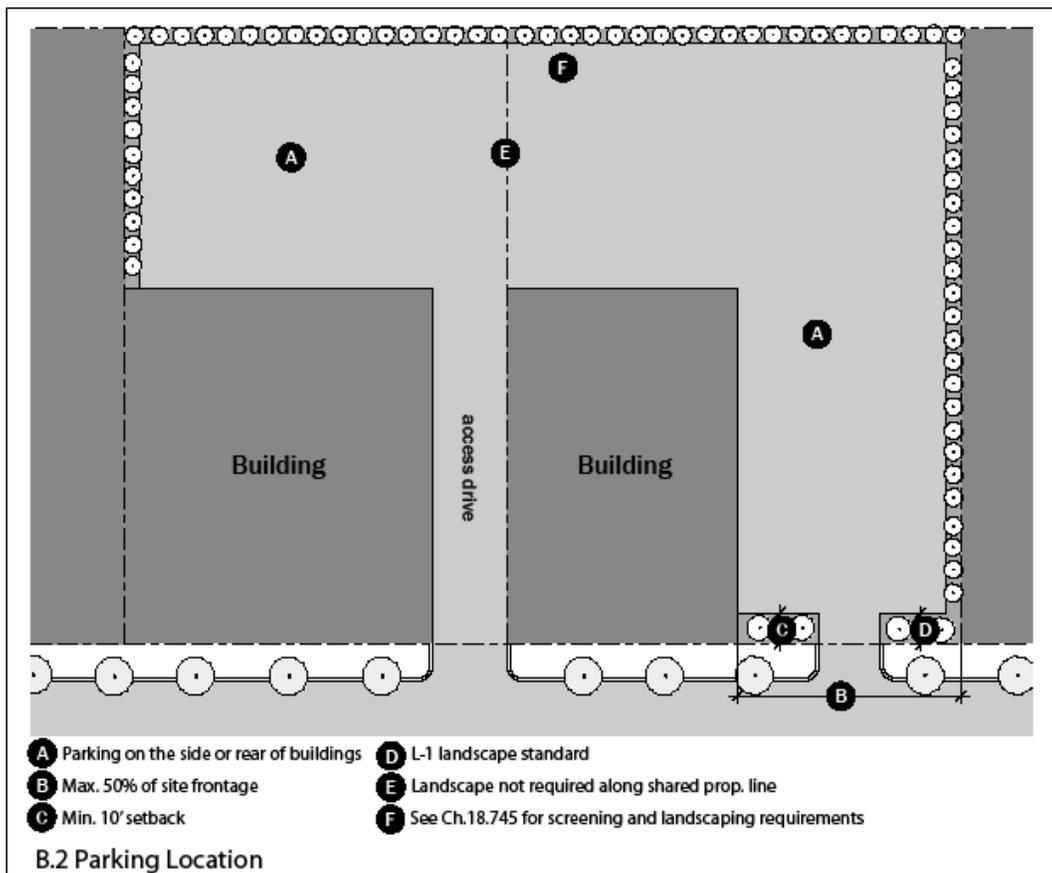

⁵ Landscaping/screening requirements for parking lots must be met.

⁶ Station area overlay permits a maximum of 80 units per acre (see Map 18.610A).

⁷ 45 feet within 200 feet of Fanno Creek Park boundary (see Map 18.610.A) or within 50 feet of low or medium density residential district.

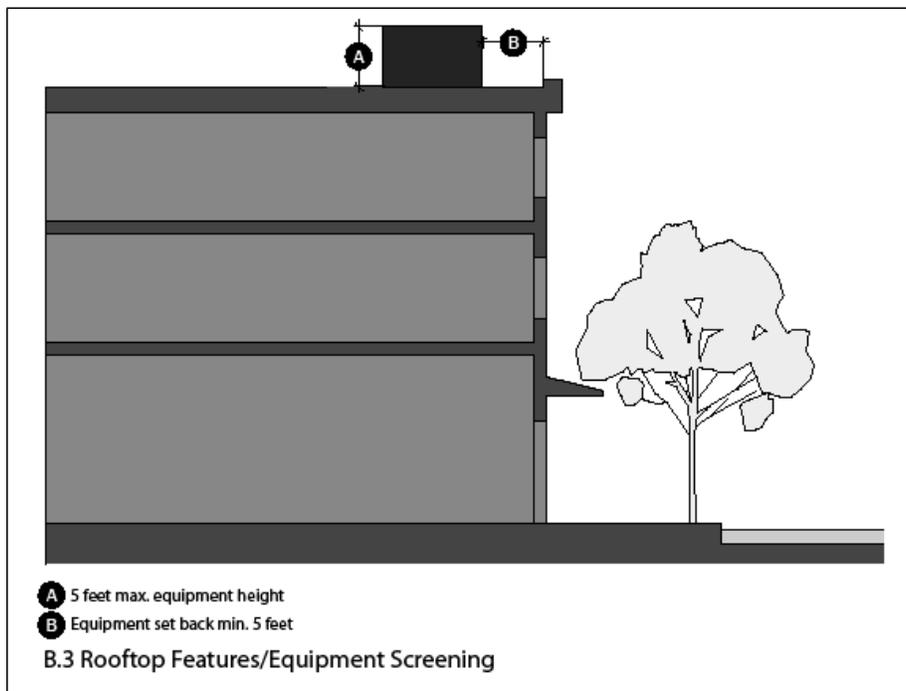

⁸ Minimum density applies to residential-only development (not mixed use).

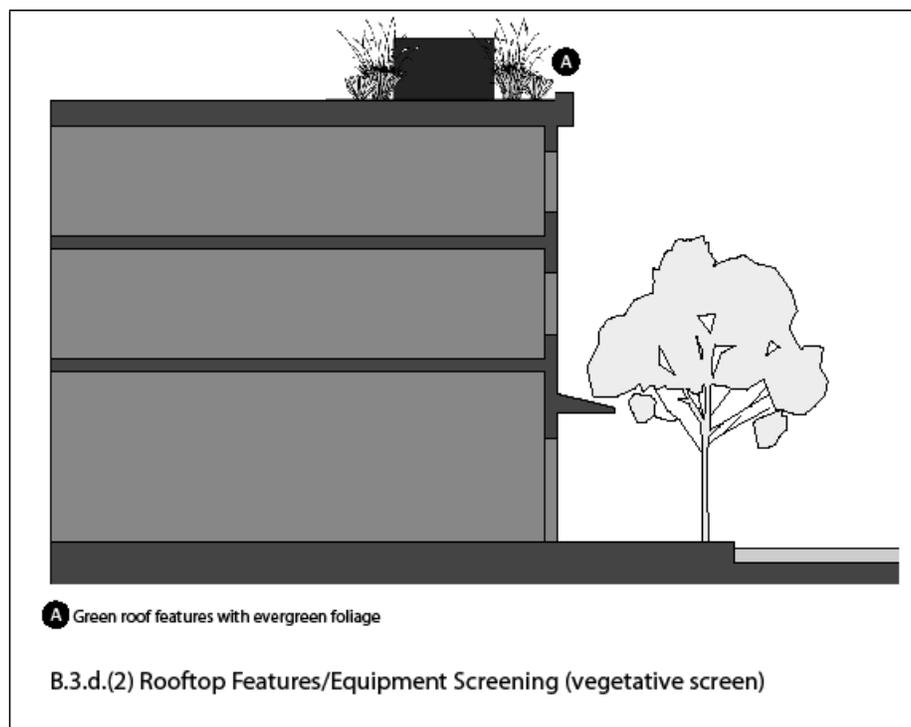

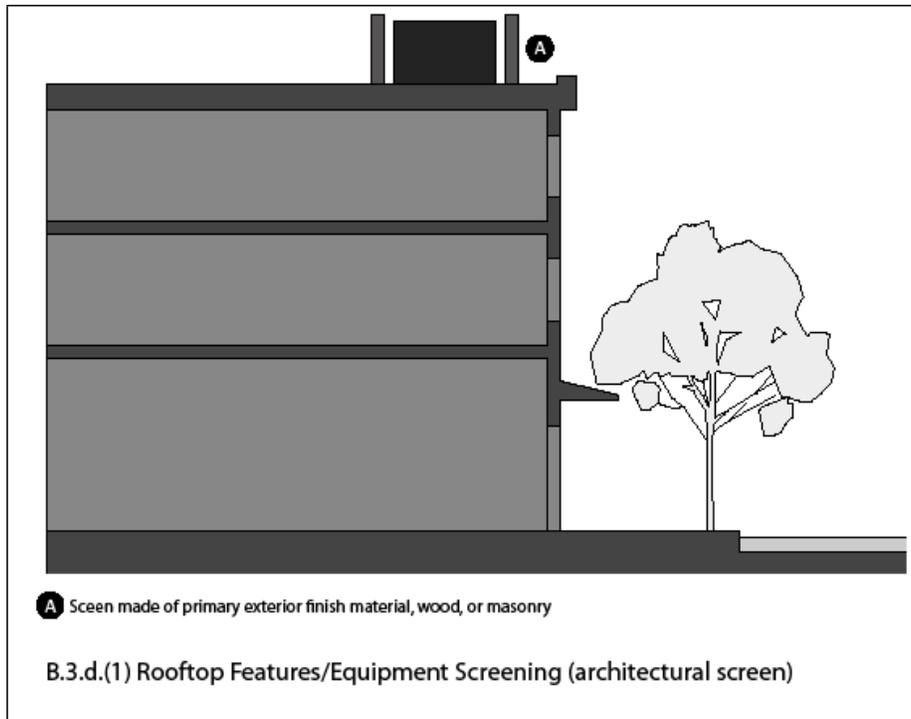

2. Parking location.
 - a. Parking is allowed on the side or rear of newly constructed buildings. If located on the side, the parking area shall not exceed 50% of the total frontage of the site.
 - b. Parking is set back a minimum of 10 feet from the front property line.
 - c. When abutting a public street, parking areas must be behind a landscaped area constructed to an L-1 standard.
 - d. Where a parking lot shares a property line with an adjacent parking lot, the landscape requirement along the shared property line is not required.

3. Rooftop features/equipment screening.
 - a. The following rooftop equipment does not require screening:
 - i. Solar panels, wind generators, and green roof features;
 - ii. Equipment under two feet in height.
 - b. Elevator mechanical equipment may extend above the height limit a maximum of 16 feet provided that the mechanical shaft is incorporated into the architecture of the building.

- c. Satellite dishes and other communications equipment shall be limited to 10 feet in height, shall be set back a minimum of five feet from the roof edge and screened from public view to the extent possible.
- d. All other roof-mounted mechanical equipment shall be limited to 10 feet in height, shall be set back a minimum of five feet from the roof edge and screened from public view and from views from adjacent buildings by one of the following methods:
 - i. A screen around the equipment that is made of a primary exterior finish material used on other portions of the building or architectural grade wood fencing or masonry;
 - ii. Green roof features or regularly maintained dense evergreen foliage that forms an opaque barrier when planted.
- e. Required screening shall not be included in the building's maximum height calculation.

4. Other exterior mechanical equipment. Other exterior mechanical equipment on the site (electrical boxes, etc.) shall be screened from view from adjacent ROW, public spaces, and parking areas by one or a combination of the following:
 - a. A screen around the equipment that is made of a primary exterior finish material used on other portions of the building or architectural grade wood fencing or masonry; or

- b. Set back from the street-facing elevation so it is not visible from the public ROW; or
- c. Dense evergreen foliage that forms an opaque barrier when planted that will be regularly maintained. (Ord. 15-05 §2; Ord. 13-04 §1; Ord. 12-13 §1; Ord. 10-02 §2)

A. Types of uses. For the purposes of this chapter, there are four kinds of use:

1. A permitted (P) use is a use which is permitted outright, but subject to all of the applicable provisions of this title. If a use is not listed as a permitted use, it may be held to be a similar unlisted use under the provisions of Section 18.130.030.
2. A restricted (R) use is permitted outright providing it is in compliance with special requirements, exceptions or restrictions.
3. A conditional (C) use is a use the approval of which is at the discretion of the Hearings Officer. The approval process and criteria are set forth in Chapter 18.370. If a use is not listed as a conditional use, it may be held to be a similar unlisted use under the provisions of Section 18.130.030.
4. A prohibited (N) use is one which is not permitted in a zoning district under any circumstances.

B. Use table. A list of permitted, restricted, conditional and prohibited uses in commercial zones is presented in Table 18.520.1.

C. Accessory structures.

1. Accessory structures are permitted in all commercial zones providing the site is still in compliance with all development standards, including but not limited to setbacks, height, lot coverage and landscaping requirements, of the base zone. All accessory structures shall comply with all requirements of the state building code.
2. All freestanding and detached towers, antennas, wind-generating devices and TV receiving dishes, except as otherwise regulated by Chapter 18.798, Wireless Communication Facilities, shall have setbacks equal to or greater than the height of the proposed structure. Suitable protective anti-climb fencing and a landscaped planting screen, in accordance with Chapter 18.745, Landscaping and Screening, shall be provided and maintained around these structures and accessory attachments.
